I love you
I love you, yes I do, you're my one real inspiration
I love you
I wanna thank you so much for being there when I need you
I love you
You bring me up when I'm down, it's nice just having you around
I love you
Even when times have been rough
You've been someone I can count on
I love you
You've been there giving me strength to go on when I just couldn't make it
I love you
Thank the Lord up above cause where would I be if it wasn't for you
You are my reality
No one else means so much to me
Together we've come a long, long way
Thank you for being here with me
I want you to know
I love you
If it weren't for you, my world would be so lonely
I love you
You brighten all my days just knowing that you love me
I love you
I'm sure glad I met you
I love you
There's no one else who can replace you
I love you

I never will forget you
I love you
You are my reality
No one else means so very much to me
Together we've come a long, long way
Thank you for being here with me
I want you to know
I love you
If it weren't for you, my world would be so lonely
I love you
You brighten all my days just knowing that you love me
I love you
I'm sure glad I met you
I love you
There's no one else who can replace you
I never will forget you
I love you
