Music and Lyrics by Eddie Harris

What's wrong with the world today
Other countries never do what they say
Disarmament is only a game we play
People are confused

What's' wrong with the world today
Food's being wasted, people starve while they pray
Rich against poor is really a price to pay
Wars are inevitable

There are storms, quakes, and floods
Seasons are in contrast with inflation
Races are at odds with each other
People from outer space won't say hello

What's wrong with the world today
Crime and tragedy excels in every way
Life is but a pawn in the game of chess we play
What is wrong with the world....

(Chorus)

What is wrong with the world today x 6
